ABFALL-TRENNUNG:
Ich mach mit!

Clear glass and stained glass

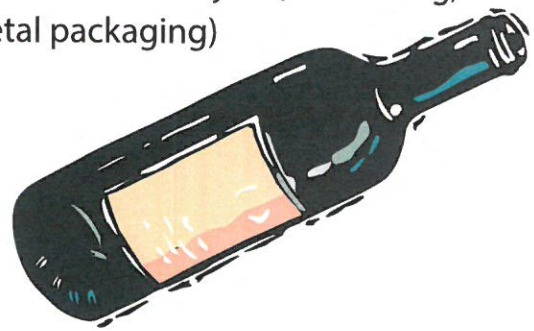
free of charge

yes ✓ →
- Exclusively packaging glass: e.g. disposable bottles (wine, champaign, juice), preserving jars (fruit, vegetables, jam), perfume bottles

where ? →
- Public containers for clear and stained glass
- Municipal waste collection site

no ✗ →
- Window glass, glass crockery, dishes, mirror glass, wire glass, drinking glasses, china, earthenware, silex and bulbs, neon lights and energy saving lamps

Hint ! →
- Please carefully separate clear glass from stained glass
- Remove caps and lids from bottles and jars (Yellow bag, metal packaging)



Electronic waste

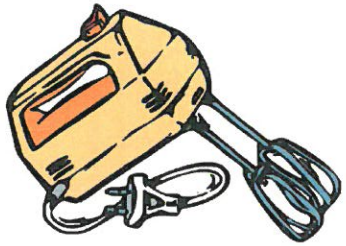
free of charge

yes ✓ →

- All devices that are powered electrically. There are six categories for collection:

ELEKTROALTGERÄTE KOORDINIERUNGSSTELLE Austria GmbH

- **Large devices:**
  Washing machines, electric cookers, dishwashers
- **Small devices:**
  Cell phones, radios, mixers, vacuum cleaners, electronic tools
- **Monitors:**
  TVs, computer monitors, Laptops
- **Cooling devices:**
  Freezers, fridges, air conditionings
- **Condenser discharge lamps:**
  Neon lights and energy saving lamps, LEDs
- **Batteries**



where ? →

- Municipal recycling centre

Hint ! → **Further info: www.elektro-ade.at**

Lithium batteries

yes ✓ →

- Small lithium batteries (< 500g)
- Large lithium batteries (> 500g) from e-bikes, electrical tools
- Damaged lithium batteries (regardless of size), e.g. from model cars, aeroplanes

where ? →

- Local authority recycling centre
- Return to the retailer

no ✗ →

- Batteries that have other elements (e.g. zinc-carbon, nickel-cadmium)
- Button batteries from clocks, cameras, hearing aids (with device batteries)
- Car batteries or vehicle batteries from e-cars or e-scooters

Hint ! →

- Large lithium batteries that are easy to remove from the device must be dispo sed of separately, as Li batteries. Caution with damaged Li batteries! These must be taken carefully and promptly to a collection point.
- Damaged lithium batteries can be recognised from deformations, a charred smell, heating when not in use or discolouration.
- Do not dispose of them in the residual waste – risk of fire!

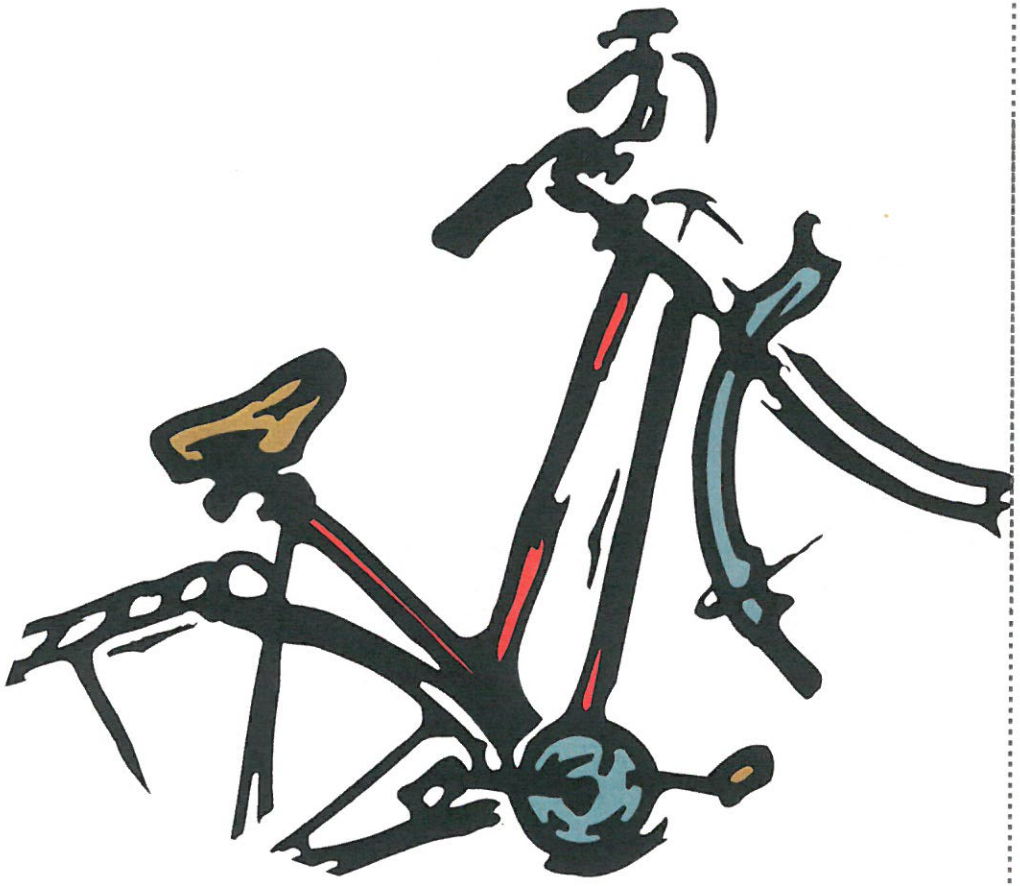
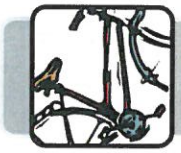
ABFALL-TRENNUNG:
Ich mach mit!





Scrap iron

yes ✓ →
- Electric cookers, washing machines, bicycles, ovens, sheet metal and iron parts, wire fences, gutters, iron pipes, drums etc.

where ? →
- Local authority recycling centre

no ✗ →
- Glass bottles, aerosol cans, fire extinguishers

Hint ! →
- In advance, empty all liquids (e.g. oils) from engines, machine parts, boilers and drums

Scrap wood

yes ✓ →
- Wooden furniture, doors and door frames, plywood, construction timber (clean), formwork panels, fence posts, wooden window frames (without glass), coated and painted wood

where ? →
- Local authority recycling centre

no ✗ →
- Railway sleepers and telegraph poles must not be placed in scrap wood, as they are impregnated with substances that are harmful to health.

Hint ! →
- Treated wood must never be burnt in your own stove, as hazardous pol lutants are released on combustion in normal, domestic stoves.
- Old furniture can also be offered at flea markets, on exchange platforms, in the ReUse collection or in free-ads.

Bulky waste

yes ✓ →
- Trash that cannot be dumped into the residual waste because of it being too bulky or too heavy for example mattresses, carpets, floor covers, furniture

where ? →
- Dispose of at the municipal waste collection site

no ✗ →
- Residual waste, organic waste, packaging, grass and shrub cutting, rubble

Building rubble / construction waste

yes ✓ →
- **Mineral building rubble:** small concrete parts, concrete tiles, tiles, masonry, plaster remnants, roof shingle, mortar, sand, stones

where ? →
- Small volumes: local authority recycling centre
- Larger volumes (extensive demolition work): directly via an authorised company

no ✗ →
- Plasterboard, Heraklith, insulation, mineral wool, asbestos cement (Eternit), earth

yes ✓ →
- **Construction waste:** plasterboard panels, cement-bonded particle boards (Heraklith), fireclay and chimney bricks, glass blocks…

where ? →
- Small volumes: local authority recycling centre
- Larger volumes (extensive demolition work): directly via an authorised company

no ✗ →
- Asbestos cement (Eternit), mineral wool, earth

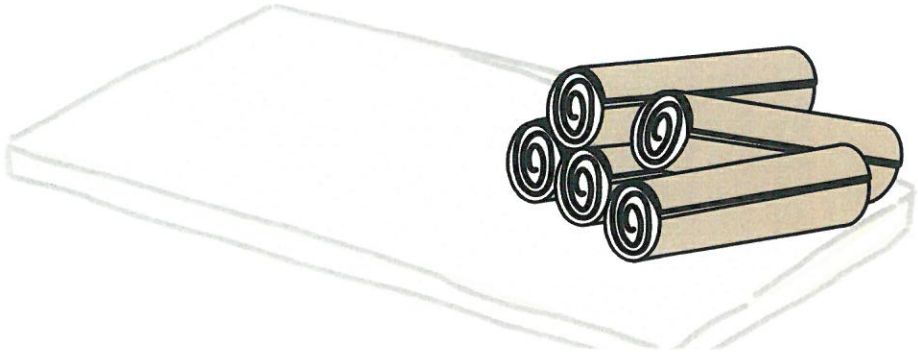
Synthetic mineral fibres

yes →
- Mineral wool (stone, glass or slag wool, ceramic fibres) in the form of boards, mats, felt or loose fill

where →
- Small volumes: take to the local authority recycling centre packed in transparent and sealed bags
- Larger volumes: directly via an authorised company

no →
- Contaminated mineral wool, other construction waste

Hint →
- Mineral wool can release respirable fibre dust, which may have a carcinogenic effect on people. It is therefore essential to avoid dust formation!



Used cooking oils and edible fats into the Oil-bucket

free of charge

yes → The oil-bucket "ÖLI" (available for free at the municipal collection site) helps you to dispose of:
- Used frying fat/oil and dripping
